Title: Need to extend a special revival package for Burn Standard Company.

SHRI RUPCHAND PAL (HOOGHLY): Burn Standard Company is a reputed wagon producing company engaged in wagon production for a long time. Currently, this company is suffering from working capital crisis, for the unremunerative wagon orders placed by the Railway Board during the last financial year. The Howrah Works of BSCL is not in a position to maximise its production, so is Burnpur. The employees are trying hard.

In a similar situation, a special package assistance was granted to Bharat Wagon and Engineering Company Limited in Bihar. BSCL may be provided with similar such special assistance of Rs.10 crore immediately to resume production.

The hon. Minister, Shri Sontosh Mohan Dev has written; I myself have also written to the Railway Minister; the Standing Committee of Railways also has made the recommendation, but still there is no outcome. Earlier, the PMO had intervened.

Bharat Wagon Engineering Company Limited in Bihar had been given some special assistance. Similar such assistance should be given to Burn Standard Company Limited. Thank you.
